THE LOGAN DRY GOODS CO

### -Of Local Interest.-

Monday was a decidedly tame court day.

Saturday night's storm played havoc at the telephone exchange, burning out over two hundred phones.

Now some are whining "too much rain." Dry up. If it wasn't raining you would be kicking about the dust.

The colored G. A. R. post decorated the graves of departed comrades Sunday. The local post has a large membership.

An exchange says. We now have the horseless carriage, the noiseless gun and the wireless telegraph. All we now need is an achilles cucumber to prepare us for the millennium.

#### Big "Injun" Dresses Up.

Mr. S. D. Rothwell, Lancaster's new chief of police, has come out in a handsome uniform. The "Big Injun" stands six feet four inches, and is as straight as an arrow. He is keeping good order, too, for which the people are thankful.

#### Help Scarce.

Since the weather turned warm, it is almost impossible to get cooks and servants. They object to working during the winter, and its only necessity and suffering that makes them hire out. A number of families are thinking seriously of importing white help.

#### Will Oppose Judge Sautley.

It has been telegraphed out from Danville that Hon. Robert Harding would be a candidate for circuit judge of this district, in opposition to Judge M. C. Sautley. Both gentlemen have a strong following in Garrard, and it will be a case of hoos and hoos over here.

#### Big Fair at Crab Orchard.

Great preparations are being made for a big fair at Crab Orchard, and that it is going to be a hummer is an assured fact. Splendid grounds are at hand, and the most liberal premiums will be given. A tremendous crowd will be on hand and a big time is assured.

The banks will close Friday, and the post office will only be open part of the day. A law should be passed making wash day a holiday, and require these places to close. The banks don't bother printing offices very much but closing the post office every few weeks is a nuisance that should be abated.

A valuable Jersey cow, belonging to Judge Hemphill, died Monday from some unknown cause. He had been offered a fancy price for her.

#### Cheap Rate Sunday.

The L. and N. will make another \$1.50 rate to Cincinnati Sunday. Train leaves Lancaster at 2:44 a. m., reaches Cincinnati at 7:30. Returning, leaves the city at 7:30 p. m. get to Lancaster at midnight. The Zoo, baseball, and many other attractions are now in full blast.

#### Won at Nicholasville.

The Demorest medal was won by Miss Mae Robinson, a Garrard county girl, at Nicholasville last week. The contest was a great success, and enjoyed by a large crowd. Miss Amanda Anderson, who has charge of this branch of the W. C. T. U. work, is very successful each year.

#### Machinery Shipped.

One of the Councilmen tells THE RECORD the machinery for drilling the artesian well has been shipped and will soon be here. Its high time it was, and work commenced on the water works. The people want this system, and some kicking will be heard if the fellow with the machine don't get to work pretty soon.

#### Tickets for Contest.

Mr. J. M. Alverson, one of the managers of the contest to be held in Stanford on evening of June 18, was here Monday and made arrangements with Mr. Sautley Hughes to sell reserved seat tickets to those of our people wishing them. This will save much trouble, and if you want to be sure of a seat, see Mr. Hughes at once.

#### Will be Enjoyable.

The Ladies' Aid Society has decided on a new and unique entertainment for the benefit of its building fund. It will be a contest for vocal soloists, and is to be held in the Garrard Opera House. Good singers from several adjoining towns will take part, and Gibson pictures shown between the songs. Full particulars published later.

#### Teachers Selected.

The trustees of the Graded School selected teachers last week to fill the several vacancies. The new principal is Prof. J. E. Mannix, of Milan, Tenn. We understand he has a splendid lot of testimonials and recommendations, both as a teacher and a gentleman. The other new ones are Prof. Howard Sullivan, of Danville, and Miss Amanda Anderson, of Lancaster. Prof. Sullivan takes the place filled by Prof. Todd, who retires.

#### What's the Use Worrying?

With cattle and hogs at war prices, old hens bringing turkey prices and eggs so high that every time a hen cackles it means a cent and a quarter, the Winchester Democrat says "there is no sense in a farmer fretting himself to death over a few cut worms."

#### Some in Lancaster, Too.

The Cynthia Democrat says: The "he" shirt-waist has a companion this spring in the "she" neck-cloth that winds around the jugular and falls in long, broad flaps over the manly bosom. A "he" shirt-waist and a "she" neck-cloth on a dandy in jeans trousers and muddy shoes is combination just too cute for anything. You can meet it in Cynthia.

#### Court Day.

A good crowd came in Monday and business was fairly good. There were about 250 cattle on the market, 100 of which were sold. The prevailing price for steers was 4 to 5 cts, some heifers sold at 3 to 3 1/2. A few cows brought \$25 to \$35. The old plug horse was on hand, but, as usual, went for a song. There was little drunkenness.

#### Its "Hawful," Sure.

A good old brother came up to raise a racket because we wrote the name of another preacher than the one who preached the baccalaureate sermon. If any of our readers have lost more than ten nights sleep worrying over who preached that sermon, or if any care two staws whether one was preached or not, we will give a column of explanation of the error.

#### Much Rain and Storming.

Several severe wind and electrical storms have occurred in the last two weeks, doing damage to timber and growing crops. The wind was very high several times, causing the knees of the nervous to rattle. Rain was badly needed, however, and very little complaint was made by those who know better how to run the world than He who is at the helm.

#### The Best of the Season.

The Contest at Stanford, on night of June 18, will be far ahead of any ever held in this vicinity. None but the best speakers will be heard, and a tremendous crowd will attend. See Sautley Hughes at once and secure a seat. Lancaster will be represented by Miss Jessie Doty, her subject being "Archie Dean," and the Garrard county people should go over and applaud for her.

#### 'Twould Be The Thing.

If the Fiscal court wants to do a good turn, they can order the county jail painted and striped. Its one of the best buildings in town, but has become decidedly rusty in appearance. A few dollars spent in paint would not only protect the building, but be a great help to its appearance. Jim Hamilton says if the court will do this, he will have the bald spot on Dave Ross' head painted to match.

#### Loading Coons.

A gang of loading coons can be seen on the streets most any day. Its impossible to get them to work, at any price. The white people are to blame for this, to a certain extent, for when one gets sick they send him all he can eat and look after him in cold weather, doing everything for his relief and comfort. If Mr. Coon was left to hustle for himself at all seasons, he would work and lay up something for a rainy day.

#### Flattering Prospects.

THE RECORD printed the prospectus, letter heads, circular letters, etc., for the Garrard County Oil and Mining Co., and if you think work done at home is not good enough, just ask one of the company what they think of their job. This company is, as stated in last issue, going to devote most of its energies to prospecting in Garrard county, and will begin operations in a few days. They have desirable lands, and oil men say the prospects are very flattering.

#### Bad Raising.

When a person is so thoughtless as to misbehave in the house of God, it is no evidence of lack of brains, as said, but is positive proof of lack of training at home. When the barrel stave is properly applied, the one receiving the timber is not likely to forget it. The conduct at one of the churches Sunday night, and for several Sunday nights recently, was disgraceful. Don't blame the one talking and giggling, but put the blame where it properly belongs, on careless parents.

#### More Improvements.

The trustees have had much more work done at the Cemetery this Spring, the most important of which is the placing of screenings upon the drive-ways. This makes an excellent road, and looks well, also. The lot owners should now see that their lots are put in condition, and go out and look after them. Some lots have not been touched in years, and they belong to people whose names you would be surprised to hear, too. Mr. Henry, the Sexton, will, for a small fee, look after your lot and keep it in proper condition.

#### Honors for Newspaper Man.

At a recent election Capt. E. W. Lillard, the clever editor of the Danville News, was made a Major in the Second Regiment State Guards. Permit us to salute you, Major.

#### Fire at Stanford.

The Stanford graded school building burned Monday night. There seems to be no doubt that the fire was the work of incendiaries. The loss is about \$4,500. An election to decide whether bonds for \$12,000 to provide for new buildings will be issued is to be held there Saturday.

#### Vote on Local Option.

In the county court Monday, a petition bearing the required number of names, was filed asking that a vote be taken in precinct 6, district 3, (Buckeye) as to the sale of liquor therein. At present the precinct is dry, and a hot fight will be made by both sides of the question.

#### Much Damage From Cut Worms.

We learn that great damage has been done in the North end of the county by the cut worms. Messrs. Geo. T. Higginbotham, Fred Yeager, and many other prominent farmers, of that section lost many acres of hemp and other growing crops from the pests.

#### Mr. Gilbert's Announcement.

In another column of THE RECORD will be found the announcement of Hon. G. G. Gilbert for congress. Mr. Gilbert is well known in Garrard and has many warm friends who will look after his fences in this neck to the woods. He writes he has returned to Washington to attend to some important matters, but will be back in the district shortly to make his canvass. A primary has been ordered for August 9th, to make the nomination.

#### You've Heard This Before.

A Kansas paper, in mentioning the marriage of two popular young people concluded with this: "The young people took the morning train for St. Louis, where they will spend more money in a few days than Willie can earn in three months. The groom gets a salary of \$27 a month, which is about the allowance Anna has been used to for pin money. We wish for Willie's sake that the old saying that it takes no more to support two than one wasn't a lie."

#### Papers Easy to "Start."

Necessity forces the truth out of us all. A young man bought a country newspaper not many months ago and wound up his first editorial with this proud statement: "I would rather be the editor of a good country newspaper; enjoy its privileges and its part in the affairs of the community, the State and the Nation, than to be the president of the Standard Oil Co." Last week in bold type at the head of the editorial column was found the following: "This paper for sale. Will sell for cash or exchange for a Kansas farm or an interest in a good huckster's business."

#### A Nuisance and Dangerous.

The custom of leaving machinery, old wagons, etc., standing on the streets and sidewalks at night seems to have come to stay. THE RECORD has frequently called attention of the Council to this, but the practice has never been stopped. Just such carelessness and lack of attention as this recently cost the taxpayers of Lancaster several hundred dollars. An old farm wagon has its permanent abode alongside the Park fence, while goods boxes, farm machinery, etc., have full authority to take up all the sidewalk. In every other town there is a law against obstructing the highway, but there seems to be none here.

#### District W. C. T. U.

The meeting of the above organization, at Nicholasville last week, was one of the most enjoyable and profitable in its history. Those who went from here are loud in praise of the hospitable way the Nicholasville people entertained them, and say they will never forget the many kindnesses shown. Mrs. May R. Patterson, of this city, was unanimously re-elected as president, an honor most worthily bestowed. The next meeting will be held in Perryville. The other officers elected were Mrs. Carrington, Nicholasville, vice-president, Miss Ida May Adams, Mt. Vernon, recording secretary, Mrs. Pickett, Wilmore, corresponding secretary, Mrs. Maud Embury, Berca, treasurer.

#### Good News for Taxpayers.

Messrs R. H. Tomlinson, A. R. Denny and Thos. Austin, who went to Frankfort last week to appear before the State Board of Equalization, did splendid work, and succeeded in having the rate fixed near what it should be. Last year, the rate of taxation was raised in this county eight cents. This, together with another raise of five cents more this year, made the raise 13c. The gentlemen explained the case to the state officials, and after much argument, succeeded in having the rate reduced so that the entire raise will only be 3c, making the rate in Garrard \$1.03. This work will be appreciated by the tax payers, and the gentlemen should be given a vote of thanks.

#### No More Colored Supplements.

The post office authorities, at Washington, have completely shut out the country papers from sending colored or illustrated supplements, deciding that the ones recently sent out by this office are not entitled to the pound rate given newspapers, thus making the expense of mailing too great to justify the country publisher in giving his customers a little extra reading matter of that kind. The supplement used by the country papers were of the same character as is sent out by the Sunday daily papers, and this discrimination against the country publisher is decidedly fishy, to say the least. Our supplements were properly prepared, bearing name of THE RECORD, date, place of publication, etc., but the high-muck-a-muck says we can't send any more, and as they have the last say, that settles it. If the publishers were to get their congressman to look into the matter, some hides could be made to smoke, we suspect.

#### Was Beloved by All.

No man was more beloved by Lancaster people than Dr. J. L. McKee, notice of whose death appears elsewhere in this issue. He was born and reared in Lancaster, but lived in Danville for many years. Dr. McKee was a Christian gentleman, one of that old type who believed in living up to the letter of God's law in everything. He was one of the old-timers who took no stock in what we may call "mouse-track religion," and had little patience with the hobbies of some prominent preachers of today. He was one of the most tender-hearted men we ever knew. He seemed to be always watching for a chance to do a good turn for his fellow-man. He was not possessed of much of this world's goods, but had it been in his power he would cheerfully assisted every friend or, we can safely say, even every acquaintance who was in need. He was an unusually energetic man, devoting all the time he had at home to study. He has done much work in Lancaster for the cause of his Master, and, as stated above, the people here all loved and adored him. They were so well acquainted with his many sterling traits of character that it is folly for an humble writer like this to attempt to sing his many praises. There certainly was laid up for him a crown in Heaven, and he has gone to his great reward leaving absolutely nothing behind that would cause the slightest censure from the most critical of men. Would to God we had more men like him here on earth.

#### Notice to Veterans.

All Ex-Confederates are requested to meet at R. H. Tomlinson's office, in Lancaster, Saturday, June 7th, at 2:30 p. m. Some important matters of interest to all will be acted upon. By order of Commander D. F. Logan Camp.

#### Hon. R. C. Warren Withdraws.

When I entered the race for the Congressional nomination Messrs. Gilbert and Carter were candidates, with Col. Dan Moore mentioned by his friends as a probable entry in the race. A primary election has now been ordered for the 6th of August next, a method of settlement the fairest of all in making party nominations, but the expense of holding the primary election, with only two candidates to bear that expense, makes the cost too great for me. For this reason and this reason only I retire from this contest.

I am profoundly grateful to my friends throughout the district for their very warm and hearty assurances of support, and my unspoken allegiance to my party and its organization in the past is given as a hostage for the future.

Respectfully,  
R. C. WARREN.

#### Its A Belle, Sure.

When Capt. W. J. Kinnaird returned from Mexico, last week, he brought a number of relics obtained while in that country. He went over many of the battle grounds where the Americans and Mexicans fought some fifty-five years ago. One point of interest was Bishop's Palace. Here a desperate fight was had, and the walls are filled with bullets fired by the Americans. Capt. Kinnaird dug out several of the missiles and brought them home. He came up to show them to Capt. F. J. White, the old Mexican veteran typist, of this office. Before looking at them, the captain said, "Now Willie, just before that fight began, I took my pocket knife and cut my initials on every bullet I had. Do you suppose one of those you have could bear that mark?" The balls were produced, each one carefully inspected, when, to the great astonishment of all, there was one bearing the initials, "F. J. W." The letters were battered out in places, but were still legible. Kinnaird told which side of the building they were taken from, and it proved to be the same on which the veteran typographer was fighting during the famous battle. Capt. White says that while he is not blessed with much of this world's goods, yet no amount of money could purchase this relic. He carries it in his pocket and will not trust it out of sight.

# South-Eastern Kentucky Oil and Gas Company. Lancaster, Ky.

Par Value of Shares \$1.00. Full Paid and Non-Assessable.

OFFICERS: Lou J. Craig, president; Geo. W. Palmer, vice president; C. D. Walker, treasurer; J. W. Alcorn, counsel; W. McC. Johnston, secretary.

Money is always made by those who get valuable information EARLY and act on it PROMPTLY; by those who go in at the START; who do "business" on the "ground floor"; there is no art in being late. It is those who are EARLY who make the MONEY. The KENTUCKY oil field is attracting the attention of the best oil men everywhere. Experts have pronounced it unquestionably the coming field for the production of high grade refining oils. The oil fields of New York, Pennsylvania and West Virginia are gradually becoming exhausted, while Texas provides fuel oil only. The great fortunes made in oil in those states will be duplicated many times in Kentucky in the next five years. The only question is, who shall reap this harvest. Realizing this fact, this company has been quietly acquiring the cream of the oil property in this

State, and knowing the importance of having its development in the hands of a trained oil expert has secured as its manager and President, Mr. Lou J. Craig, who is up to this time the most successful oil producer in the State. His discovery and development of the splendid oil pool in the Bath-Menefee oil fields eight months ago, until then not even suspected of being there but now containing over thirty wells all strong producers, stamps him the foremost in Kentucky Oil Development. For every dollar then invested there, on the "ground floor," on his judgment, he now shows \$1,000 in oil already produced, from which all feel assured investors in our company are protected as far as human foresight and wisdom can provide in oil development and operations. OUR PROPERTIES:—By acting promptly, our company has se-

cured about ten thousand acres of the very choicest oil properties in practically all the developed fields in the State. We are now drilling in the splendid Bath-Menefee field where we hope to bring in a strong well very shortly. We have also just closed a contract to sink a number of wells on our property right in the center of the oil field of Knox county within 60 days. Our property there lies on the famous Richland Creek oil field, near and in sight of both the Jones and Wages gushers, estimated at twelve hundred barrels each per day. When the Wages gusher came in on Christmas day, it was beyond control for three days and in spite of all efforts to cap it, overflowed for seven miles down the creek, catching fire and destroying the drilling machinery, trees, drift, and everything along the creek for seven miles. Our property is just

between these wells and the Indian Creek wells; is just above and immediately adjoining the Hutchings well that came in last week, and where four wells are now under contract. We are just below and in sight of the famous Jarvis well, regarded as one of the very best in the field. The property adjoining us above and just between us and the Jarvis well, is to be developed in April and several other tracts within a few hundred yards of us are to be drilled as soon as derricks can be erected and machinery placed. Not less than 100 other wells are under contract in the vicinity, so we are entirely surrounded by this development and are right in the center of this splendid Oil Pool, having strong producers on the four sides of us which absolutely insures prompt returns to our investors. The Hutchings, Swan Lake and

other Companies, operating in this oil pool have promptly withdrawn their stock from sale and we believe we are the only company in this immediate oil field who has not done so. For the purpose of raising funds for immediate development, including tanks and pipeline, our company now offers for sale Twenty Thousand Shares of its capital stock at par \$1.00 per share, in amounts from one share up. Every purchaser of stock will own an interest in all the properties of this company. Those who got in on the "ground floor" in the Stickford, Sunny Brook, Mt. Sterling and several other companies, here only a few months ago have already cleared hundreds of thousands of dollars, and it will grow to millions during this year, and we are offering you the same opportunity to share in the same good fortune.

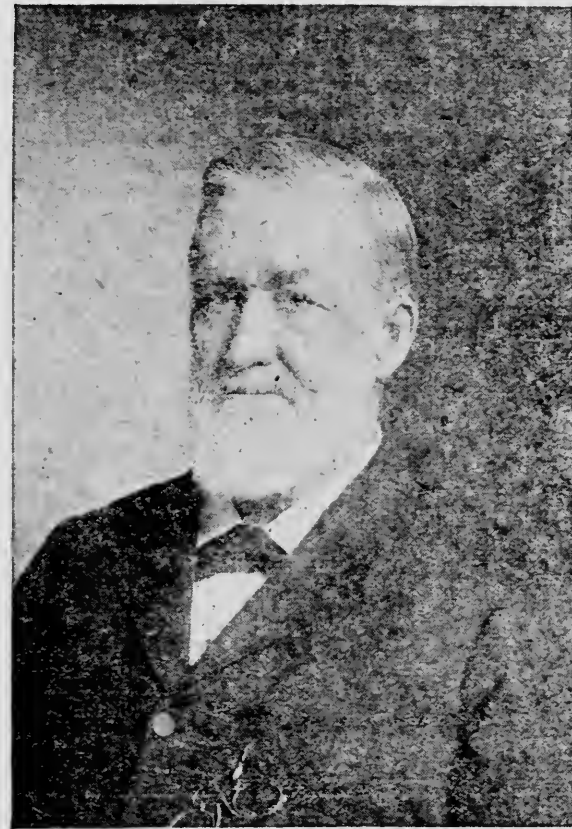

IN CONCLUSION:—We guarantee that every dollar derived from the sale of the treasury stock in the company shall be economically and wisely expended in the development of Company's property. That no officer of this company shall receive one cent of salary until the company has reached a dividend-paying basis and has actually PAID at least ONE HUNDRED PER CENT in dividend to all the holders of its capital stock. If you desire to invest, invest NOW. We need your money NOW for development purposes. We will NOT need it LATER. When we have brought in the first two wells, the stock will be withdrawn from sale entirely. We refer to every Bank or business house in Garrard county. Address all communications to the Secretary.

## We Can Save Money For You!

When you come to town, don't fail to take a look at our stock. Remember, we have the OLD HICKORY WAGON, all sizes, and the largest and best selection of SURRIES, PHAETONS, BUGGIES and ROAD WAGONS ever put on the market in Lancaster.

We also have a fine lot of Wagon Gear, Breeching, Lines, Traces Hames and Hame Strings, Collars, Pads, Breast Chains, etc., as well as a splendid assortment of Buggy Harness. These goods were bought right and we can save you money. Come and see us and we will prove this to be a fact.

Death of Dr. John Lapsley McKee.

Danville News:—Dr. John Lapsley McKee, eminently distinguished by a long life time of work in the Presbyterian ministry and the educational field, died last Friday morning after a severe illness beginning last Monday, the 19th.

Dr. McKee was born in Lancaster, on Feb. 17, 1827, where he continued to reside during the period of childhood and youth.

He received his education in Centre College, graduating with the class of 1849, and afterwards attended the Princeton Theological Seminary and also the Danville Theological Seminary, completing his course in 1855. During the latter two years he was also the principal of the Centre College preparatory. In 1856 Dr. McKee was ordained to the Presbyterian ministry by the Presbytery of Transylvania, and entered upon his work in the churches at Columbia and Ebenezer, Ky., with which he was connected until 1859. He also spent a portion of this year in Keokuk, Iowa, where he had charge of a church, but during the same year returned to Kentucky and took charge of the Chestnut Street church in Louisville, now the Warren Memorial, with which he was connected in a pastoral capacity until 1870.

During the following two years, Dr. McKee was pastor of the Pewee Valley church, and returned to Danville to take charge of the Second Presbyterian church, and assume the duties of Vice-President of Centre College, to which he had been elected in 1872. He carried on his pastoral and educational work jointly for several years, but finally retired from the active ministry, to devote his entire time to educational and evangelistic work.

Dr. McKee's greatest service to Centre College was performed in 1873, when the institution lost about one-third of its endowment fund in the Falls City Tobacco Bank robbery at Louisville. The institution was so crippled that it was impossible to continue on the former basis without additional funds. Through the efforts of Dr. McKee, the sum of \$130,000 was subscribed to the endowment, of which about \$100,000 was paid in. Later a portion of the amount lost in the robbery was also recovered.

In 1897 Dr. McKee retired from active educational work, after having been connected with the college for a period of twenty-five years. On his retirement he was elected Vice President Emeritus, which title he held at his death. Following his retirement from educational work, Dr. McKee was appointed Evangelist at large by the Transylvania Presbytery, and had charge of churches at Harrodsburg, Lebanon and Lancaster. He resigned the last named charge only a few months ago.

Dr. McKee was of Scotch Irish extraction, coming of an ancestry that has built up and contributed very largely to the Presbyterian church in America. His interest in education was very deep, and through his assistance, many young men, who otherwise would have been deprived of that advantage, were enabled to complete a college course. Dr. McKee and Judge

Munger, of Ohio, were the founders of the Beta Theta Pi fraternity in Centre College, which was instituted in 1848, and still continues. Dr. McKee's work was of the character that endures, and will continue to grow and benefit others after his earthly life is ended.

Dr. McKee is survived by his widow, who was Miss Speake; Rev. Sam'l McKee, of West Salem, Wis.; Rev. James L. McKee, of Kansas City; Miss Leila McKee, President of Oxford, O.; Female College and R. G. McKee, of Danville.

The funeral was held from the Second Presbyterian church Saturday afternoon at 2 o'clock, the services presided over by Dr. Ramsey. He was assisted by President W. C. Roberts, Dr. Goodloe, of North Vernon, Ind., Dr. Rout, of Versailles, and Dr. Hubbard, of New York.

At a meeting of the officers of the Presbyterian church in Lancaster to note the death of Dr. J. L. McKee, at his home in Danville, Ky., it was resolved, that we recognize the hand of God in translating this man of God, from his sphere of useful labor on earth to that of eternal blessedness in Heaven and that while we humbly bow in submission to "Him who doeth all things well," we deeply mourn the loss of our dear friend, wise counsellor and exemplar of our holy religion, and most devoted friend of our church.

That we hereby extend to his bereaved family our tenderest sympathy in this hour of affliction and commend them in our earnest prayers to the tender care of Him who has promised to be a "husband of the widow and a father of the fatherless," and That this official action be spread upon a page of our records, and a copy sent to the family.

### Don't Start Wrong.

Don't start the summer with a lingering cough or cold. We all know what a "summer cold" is. Its the hardest kind to cure. Often it "hangs on" through the entire season. Take it in hand right now. A few doses of One Minute Cough Cure will set you right. Sure cure for coughs, colds, croup, grip, bronchitis, all throat and lung troubles. Absolutely safe. Acts at once. Children like it. "One Minute Cough Cure is the best cough medicine I ever used," says J. H. Bowles, Groveton, N. H. "I never found anything else that acted so safely and quickly."

It is the facts that are published in newspapers that often hurt the most.

### Dangerous If Neglected.

Burns, cuts and other wounds often fail to heal properly if neglected and become troublesome sores. DeWitt's Witch Hazel Salve prevents such consequences. Even where delay has aggravated the injury DeWitt's Witch Hazel Salve effects a cure. "I had a running sore on my leg thirty years," says H. C. Harly, Kankakee, Ind. "After using many remedies, I tried DeWitt's Witch Hazel Salve. A few boxes healed the sore." Cures all skin diseases. Piles yield to it at once. Beware of counterfeits.

### INTERESTING LETTER.

Judge M. D. Hughes Remembers His Old Friends by an Interesting Communication From the Far West.

LIND, Wash., May 13, '02.

To Editor of THE RECORD:

Please allow me to send a letter to my friends through your columns. I want to refer generally to the great Northwest, and the steady march of civilization to this country, which is destined through its vast resources to become the most populous and powerful section of our nation. The teeming millions of the east will ultimately find a home in the fertile fields of the west. Emigrants are already dotting the rich plains with magnificent cities, enterprise is the trend of the advancing thousands, and soon this country will vie with the east in the acquisition of capital, and everything that exalts and embellishes civilized life.

We left Kentucky on the 5th inst., and arrived here on the morning of the 9th—having traveled twenty-four hundred miles through a country which reveals the wisdom of God, in the distribution of favors. Kentucky, Indiana, Illinois, Wisconsin, Minnesota and Dakota are rich in agricultural resources, while Montana and Idaho are rich in mineral products, and Washington is rich in both.

We were not wearied much during the long journey, the varied scenery constantly attracting our attention. The plains of Dakota, beginning at Fargo, appear as limitless as God's eternal space. I was informed that one field, in that state furnished all the wheat that was shipped to England in one year. Tell Bob Tomlinson that his land in that section will make him rich. The scenery in Montana is sublime and enchanting beyond description. From fertile valleys we were lifted to an elevation of 8,000 feet above the sea level, among the snow-capped mountains of the Rockies, which lift their heads above the clouds and present a strong contrast between the white and the beautiful green. Beautiful lakes, winding rivers, attractive resorts, the chief of which is Yellowstone Park, all conspire to make the route taken, by us, the most desirable. I would advise all Kentuckians who come west, to take the L. & N. to Louisville, the Monon route to Chicago, the Chicago and North-western to St. Paul, and the Northern Pacific to Washington. This is the most available, the cheapest and most desirable route. These roads furnish the very best accommodations, the officials are courteous, and they have reached the acme of railroad service, in every appointment.

Tell our oil companies that this country does not claim an abundance of that commodity, but plenty of gold and silver and forty bushels of wheat to the acre. Tell Swartz Bishop that I have not seen a coyote, a lynx, a deer or a bear, as they are disappearing before the magic touch of enlightenment, but I have seen a few of his red friends, a herd of buffalo, some Japs and Chinamen, though the exclusion bill will prevent the further immigration of the latter.

Mr. Noland and May are doing nicely and have a beautiful home, in which Robert, our grand-son, is the center of attraction, and the handsomest boy we ever beheld. Lind is growing rapidly in population, having increased 600 in the last few months. It is situated in a great wheat belt, has a fine school, four churches, a number of splendid business houses, and will have water works in a short time, as they are digging the trenches for the pipes now. Samuel T. Thomas has four thousand acres in wheat and last year averaged thirty-five bushels per acre and received fifty-four cents per bushel. The peculiarity of the soil is that it is of a light volcanic ash as fine as flour and can be farmed at one-fourth of the cost of farming in the middle states. Very truly,

M. D. Hughes.

### What Thin Folks Need

Is a greater power of digesting and assimilating food. For them Dr. King's New Life Pills work wonders. They tone and regulate the digestive organs, gently expel all poisons from the system, enrich the blood, improve appetite, make healthy flesh. Only 25c at R. E. Danville News:—Mr. Henry B. Hackett, Vice U. S. Counsel at Ciudad Profiro Diaz, Mexico, secured a leave of absence for a few days, and is with his sister, Mrs. Arthur Tuttle. He is one of the young men of this country who are making a success in the Southern Republic.

The young men of the graduating class, Messrs Victor Stone, Ollie Wallace, Charlie West, Louis Gill and Marshall Denny, entertained delightfully Friday night at the Garrard hotel their classmates, Misses Marie Joseph, Ethel West, Bessie Batson, Cora Ward and Willie Belle Burnside. An elegant supper was served.

News was received here last week of the marriage of Miss Bessie W. Combs, to Mr. James E. Edwards, of Columbia, Missouri, the Methodist minister of that place officiating. The bride is a daughter of Mr. and Mrs. Wm. H. Conny, who resided in Missouri several years and recently moved back here. The groom is a resident of Columbia and a farmer by occupation.

One of the pleasantest of the many recent social functions was the party given by Mr. and Mrs. Wm. McC. Johnston to their charming niece, Miss Willie Belle Burnside, Tuesday evening. The handsome residence was tastefully decorated and brilliantly lighted for the occasion, and those present will long remember the event with much pleasure. Delightful refreshments were served. We regret that lack of space prevents giving a list of the happy guests.

Mr. E. H. Beazley, of Stanford, was here Monday and gave The Record a lot of advertising for the Ninth Annual Contest for Young Ladies, which will be held in Stanford on the night of June 20th. # SCROFULA

I bequeath to my children Scrofula with all its attendant horrors, humiliation and suffering. This is a strange legacy to leave to posterity; a heavy burden to place upon the shoulders of the young.

This treacherous disease dwells in the body and hinders the growth and development of the faculties, and the child born of blood poison, or scrofula-tainted parentage, is poorly equipped for life's duties.

Scrofula is a disease with numerous and varied symptoms; enlarged glands or tumors about the neck and armpits, catarrh of the head, weak eyes and dreadful skin eruptions upon different parts of the body show the presence of tubercular or scrofulous matter in the blood. This dangerous and stealthy disease entranches itself securely in the system and attacks the bones and tissues, destroys the red corpuscles of the blood, resulting in white swelling, a pallid, waxy appearance of the skin, loss of strength and a gradual wasting away of the body.

S. S. S. combines both purifying and tonic properties, and is guaranteed entirely vegetable, making it the ideal remedy in all scrofulous affections. It purifies the deteriorated blood, makes it rich and strong and a complete and permanent cure is soon effected. S. S. S. improves the digestion and assimilation of food, restores the lost properties to the blood and quickens the circulation, bringing a healthy color to the skin and vigor to the weak and emaciated body.

Write us about your case and our physicians will cheerfully advise and help you in every possible way to regain your health. Book on blood and skin diseases free.

of cut worms in some places.

The cut worms have become a pest in Bourbon. The worms cut down 65 acres of hemp belonging to E. K. Thomas, and a 35 acre field of oats belonging to Ed Bank. On the Bethlehem pike, W. O. Butler was preparing ground for cow peas, and was astonished at the number of cut worms. In a square foot of ground he found and killed about 75 of the voracious worms. A large percentage of early corn has been cut down, and extensive replanting is necessary. —Paris Kentuckian.

The Wisconsin station gives its experience on shearing lambs in a report on sheep experiments as follows: "Experiments extending over four years show that when lambs are shorn early in the season—October—they make rapid gains for the next six or seven weeks, or until such time as the wool has reached a length of one or two inches, and at a slightly cheaper rate than unshorn lambs. But where the fattening period extends over a period of three or four months there appears to be no practical advantage whatever in fall shearing, the unshorn lambs making as good gains in the long run as the shorn lambs.

No one feature will add more to the value of a horse or team than the fact that they are free from the runaway habit. The only way to insure keeping them from this is never to allow them to get started. Because a team runs away once is no reason that it is spoiled, but it indicates that the driver has got to use something more than the ordinary caution in handling them thereafter. Let a team get away two or three times, and it means that a driver will be assuming considerable risk every time he takes the least liberty with them. There is no characteristic that a farm team can possess that will make them more valuable than the fact they can be trusted and, on the other hand, there is nothing that will detract more from their practical value than to feel that they are ready to run on the least pretext.

**Whooping Cough.**

A woman who has had experience with this disease, tells how to prevent any dangerous consequences from it. She says: Our three children took whooping cough last summer, our baby boy being only three months old, and owing to our giving them Chamberlain's Cough Remedy, they lost none of their plumpness and came out in much better health than other children whose parents did not use this remedy. Our oldest little girl would call lustily for cough syrup between whoops.—Jessie Pinkney Hall, Springfield, Ala. This remedy is for sale by R. E. McRoberts. 1m

**Walks Without Crutches.**

I was much afflicted with sciatica, writes Ed C. Nud, Iowa, Iowaville, S. D. Co., Kan., "going about on crutches and suffering a deal of pain. I was induced to try Ballard's Snow Liniment, which relieved me. I used three 50c bottles. It is the greatest liniment I ever used; have recommended it to a number of persons, all express themselves as being benefited by it. I now walk without crutches, able to perform a great deal of light labor on the farm." 25c 50c and \$1 at R. E. McRoberts, Druggist. 1m
